

# eCityTruck

Economically efficient electrification solutions for light commercial vehicles

Powertrain systems and electrified mobility

Bosch electrifies urban delivery traffic

## local emission-free drive

**eCityTruck powertrain solutions help cut local NO<sub>x</sub> and particulate matter emissions and reduce the CO<sub>2</sub> footprint of fleet operators.**

## easy integration

**Electric powertrain solutions from Bosch enable the rapid implementation of electrification strategies.**

- ▶ Ideal solutions: eAxle or Electric Drive Module for an economic and rapid powertrain electrification
- ▶ Scalable: for commercial vehicles with a total weight from 2 to 7.5 tons
- ▶ Low-noise drive: suitable for urban delivery traffic – even at night
- ▶ Future-proof: enabling continued access to restricted areas, such as low emission zones
- ▶ Well-engineered: proven components based on passenger car technology
